SAY STRAPS INSUFFICIENT

Ruling on Muzzles for Dogs in Bay State.

THEY DO NOT PREVENT BITING

Westboro Doctor Thinks Chaining Necessary.

(From the Boston Globe.)
Newton, Jan. 5.—Judge John C. Kennedy took a decided stand in the police court this morning regarding dog muzzling, ruling that the use of strap muzzles is not effective and does not comply with the recent muzzling

State Cattle Bureau, who is considered an expert on rabies, to-day had this to say on the mad dog scare:
"Dogs have been on the rampage now for two years, and about 300 have become affected with rabies, and it is about time now that drastic measures were taken to check this dangerous disease of animals and man."
"For two years there has been a wide-spread belief that the disease known as rabies does not exist, owing in a measure to the fact that some of our publications devoted to the interests of the animal kingdom have been indiscriminately quoted regarding the disease."
"Many of these doubters or unbelievers would have all dogs confined but their own, while many others require the presence of a mad dog in their house before they will be convinced that a danger exists."
"Personally I do not believe in a muzzle order. From my experience I consider it worthless as a means of

Happenings at Stetson University

First Team.
Capt. Campbell led ten of his doughty athletes down to the tailor's Saturday and had them measured for their new suits. The Stetson nine is to be the best looking team on the College Diamond this year, and we prophesy that "pretty does as pretty is." The ten men included six "8's": Campbell, Pelot, Mike, Tilden, Kirby and Hamlin. Of the other four, Haselton was

Florida Female College to enter DeLand for a game. The B. B. Ball squad is working hard regularly, and a strong team expected to develop. By next week it will be possible to form the line-up.

Vesper Service.

"Self-denial" was the theme of Mr. Hulley's discourse at last night's vesper service. It was a clear exposition of the paradox of Christianity, "a life lost for Christ's sake is a life gained." In substance Dr. Hulley said that self-denial is a good thing depending upon the person for which it is exercised. Forms of self-denial such as practiced by misers or over-ambitious athletes and students, merely modified forms of self-denial, but the true Christian type of self-denial is that suffered for others. In his address Dr. Hulley closely allied self-denial and service. They must both be borne with the proper spirit. "Service," our president said, "is not incidental, but absolutely fundamental to Christianity." The musical features of the service also were rich and varied. Two selections were rendered by the Ladies' Chorus and one by the Male Chorus. Besides this, a male quartet of exquisitely blended voices furnished an item in the order of exercises which was greatly appreciated by the audience.

A HOT TIME AT CONVENTION

Dr. Hulley and Ex-Gov. Jennings Tilt.

CHAIRMAN RAPPED FOR ORDER

Baptists Will Appeal to Courts and the Legislature if Necessary.

(From the Jacksonville Metropolis.)
The Baptist State Convention assembled in Live Oak on last Thursday, and the matter of the Stetson University resolutions was given precedence over the regular order of business, that the matter might be finally disposed of. The report of the committee on closer relationship between the university and the convention, having already been adopted, the Jennings resolution was the question under consideration when the convention reassembled.
A motion had been made, says the Live Oak Democrat, to adopt the resolutions, and this being before the convention, ex-Gov. William S. Jennings, who had introduced them, spoke for their adoption.
The entire proceedings were somewhat broken and irregular from a parliamentary standpoint, the speaker being frequently interrupted and personal remarks indulged in.
The matter progressed the tilt became more lively, and excitement was at a high pitch when ex-Gov. Jennings finished his remarks.
Notions, anecdotes, points of order and personal privileges were showered at the president of the convention until some of them were borne down and finally lost.

CLUB HOUSE, DELAND AQUATIC CLUB.

ordinance passed by the alderman of this city.

A pointer dog, owned by George P. Rice, of 9 Warren ave., West Newton, a well known business man, was placed upon a bench in the courtroom and a demonstration of the ineffectiveness of a strap muzzle made to the court.
Judge Kennedy suggested that the police notify dog owners that strap muzzles are not effective or legal. He stated that after such notices have been issued there will be no excuse for owners evading the ordinance by using such muzzles.

Two West Newton men, charged with not properly muzzling their dogs, were discharged, Judge Kennedy finding that they acted through ignorance of the ineffectiveness of strap muzzles, and did not intentionally evade the muzzling ordinance.

George P. Rice, of 9 Warren ave., and Michael J. O'Neil, of 11 Jepson ct., owners of the pointer and the bull dog which had a fierce fight in front of police headquarters several days ago, while wearing strap muzzles, were the defendants. Mr. Rice was represented by counsel.

Patrolmen David Neagle and Horace A. Bailey testified that they were sent by Captain John Ryan to separate the dogs. Both animals, they testified, had strap muzzles, but had bitten each other and were bleeding. It was with some difficulty that the animals were separated.

When Mr. Rice placed his dog upon a bench and opened the pointer's mouth while the animal was wearing a muzzle of the strap variety, Judge Kennedy said: "That dog is not properly muzzled."

Continuing, Judge Kennedy said: "I am surprised, for I believed that the strap muzzle was effective. That dog can bite a person or another dog while wearing such a muzzle. A muzzle should keep a dog from biting anything, but this one could easily get a good-sized bone in his mouth."

Judge Kennedy said afterward that the strap muzzle was not much more effective than a halter on a horse when it comes to restraining the animal.

Dozen Dogs Poisoned.

Newburyport, Jan. 2.—Considerable excitement was caused here this afternoon when it was ascertained that a dozen or more dogs had been poisoned.
At noon a report reached the station that a dog was acting queerly on Fair street. The case was investigated, and as the animal had evidently been poisoned he was killed. This was repeated several times in the afternoon. A valuable St. Bernard was one of the victims of the poisoner. A year or more ago a score of dogs owned in this city were poisoned, but the authorities were unable to locate the offender.

Not in Favor of Muzzling.
Westboro, Jan. 5.—Dr. Charles H. Reed, one of the inspectors in the

prevention. People will remove the muzzle at every opportunity. While the dog is in the house the muzzle is invariably removed, and as soon as a door is opened out the dog goes. Should the dog go mad indoors, as is almost always the case, out it goes through a window.

"Again, I know of no muzzle that is safe but the ones made of coarse meshed wire, that is of any value whatever, but these will not be found on the dog when he goes mad."

"Never have I killed a mad dog that was muzzled. It is a well-known fact that a man or woman who owns a dog will fight for it quicker and harder than for a member of their family. I would rather kick a man than kick his dog, unless the man was a cripple or had both hands tied."

"With every dog there is one or more votes, and a candidate for office would no more think of killing a voter's dog or putting a muzzle on him, than he would of putting a knife into the owner."

"There are thousands of worthless dogs in the State that are of no use to any one, but the owners of these dogs are as fond of them and give them as good care as many of the bench show dogs receive. The license is paid and they have as much right to live as the \$100 pup. The action of the Governor and Council was a wise move, and it gives the Cattle Bureau an opportunity to stamp out the disease."

"Personally, I would have all dog-chained or confined in a place without glass windows. It is no hardship for a dog to be chained on a long wire, so that he can run the length of it as on a trolley."

Bitten On the Hand.

Stoneham, Jan. 5.—James Glynn, 60 years old, who lives on Marble street, was severely bitten on the hand to-night, by a stray dog that appeared to be suffering from rabies. Mr. Glynn heard a commotion in his hen-house, and upon investigation found a cocker spaniel worrying the hens, several of which had been bitten.
Mr. Glynn secured a rope and attempted to lasso the animal, and in doing so he was bitten. He started for a doctor. On the way he notified the police and officers were sent to kill the animal. They found the spaniel near the henhouse, frothing at the mouth and snapping viciously. A shot put an end to his life.

About Dogs in Boston.

City Clerk Donovan yesterday announced that he will send advertisements to all the newspapers Wednesday relative to the muzzling of all dogs in the city of Boston for three months, in accordance with the vote of the Board of Aldermen on Monday. On Thursday the order will be enforced.

Police Shot Dog.

Malden, Jan. 5.—Nelson McArthur, aged 10, was attacked by a dog on Commercial street this afternoon and was bitten twice on the left leg. The wounds were cauterized by Dr. McCarthy, and the police shot the dog.

Two Rabid Dogs Shot.

Athol, Jan. 5.—A case of rabies was reported to the authorities to-day from Rehoboth. A dog owned by Edward Rounds was found to be affected and was shot by the owner. Another dog of Mr. Rounds was also shot, in the fear that it might contract the disease.

a sub, last year, while Pounds, Hunter and Allen are playing with Stetson their first season. Besides these ten, some three or four others will be added to the first squad. These will probably be Jones, Willard and Parsons. Mr. Pelot's injury has weakened the pitching staff temporarily, but the prospects are that the team will be in good shape for the first game.

Second Team Organize.

Saturday afternoon a meeting was held in Stetson Hall to organize a second baseball team. Robinson was chosen Captain and Cotton manager. All baseball men in school who do not play on the first nine will train for places on the second nine. A series of games will be arranged by Manager Cotton, and the second team calls for the loyal support of the school as strongly as does the Varsity nine. The men who work to make possible a strong college team, yet fail to win personal prominence, deserve commendation and treatment and may expect to play for Stetson.

Basket Ball.

Miss Helen Hunt, manager of the girls' Basket Ball team, has received notice from the girls at Rollins that the challenge for a game on Feb. 9th will be accepted. Rollins will play Stetson in the University gymnasium on the 9th and has asked for a return game to be played in the Rollins' gymnasium on the 16th. It is probable, however, that the latter date will be changed to the 23rd, since the 15th is Presentation Day at Stetson, and baseball games are scheduled for the 15th and 16th in DeLand. Miss Hunt has also challenged the girls from the

The Charming Woman.

is not necessarily one of perfect form and features. Many a plain woman who could never serve as an artist's model, possesses those rare qualities that all the world admires; neatness, clear eyes, clean smooth skin and that sprightliness of step and action that accompany good health. A physically weak woman is never attractive, not even to herself. Electric Bitters restore weak women, give strong nerves, bright eyes, smooth, velvety skin, beautiful complexion. Guaranteed at all druggists.

Tennis devotees will probably join in a day of thanksgiving, who join in an early date. The congestion of the courts has been temporarily relieved by the popularity of basketball and added relief seems promised by a speedy completion of the courts for the girls just now of Chaudoin. Splendid basketball courts have been constructed this week and all that remains to be done is the final leveling and lining off the courts. These courts will be conveniently situated for the ladies and will doubtless induce many to enjoy the sport who were hindered by the crowded condition of the general courts.

Training for the Future.

The Cooking Class, which meets this term under the direction of Mrs. G. P. Carson, is doing finely along culinary lines. The young cooks are the Misses Rena Waas, Kate Bogart, Marjorie Mace, Corinne Pelton, Ione Hough, Jeanette Merrill, and Edith Bond. Any Monday or Thursday afternoon should you take a peep into the "kitchen" at Science Hall wonderful dainties of wonderful make would greet your hungry gaze. They say it's fine fun; and soon they will cook everything to the "queen's taste."

The annual concert by the University Glee Club, this year the second number of the Lyceum course, was given on Friday evening in the auditorium. This event, which is always looked forward to by students and townspeople as one of the most enjoyable features of the series of Lyceum entertainments, found a large and expectant audience assembled.

The program was rendered as follows:

- PROGRAM.**
PART I.
Overture, "Poet and Peasant"..... Von Suppe
Piano, Minnie Hamilton, and Fuller, Organ.
Mr. Moore.
a. "To All You Ladies Here To Night"..... Calcott
b. "Stein Song"..... Glee Club.
Bass Solo, Selected.....
c. "Str of the Summer Night"..... Glee Club.
d. "Honey, I Want You Now"..... Glee Club.
Tenor Solo, Selected.....
e. "Sleep in Thy Pillow"..... Glee Club.
f. "The Soldiers' Chorus" (Faust)..... Guiond
Glee Club.

- PART II.**
"Tannhauser March"..... Wagner
a. "The Morn"..... Gelbel
b. "The Morn"..... Gelbel
Glee Club.
Bass Solo, Selected.....
Mr. Gray.
Quartet, a. "Cookery Maid"..... Lester
b. "The Morn"..... Gelbel
c. "The Morn"..... Gelbel
Organ accompaniment composed by
d. "I'm a Merry Sailor Lad"..... G. A. Moore
Glee Club.
Tenor Solo, Selected.....
e. "In Silent Mood"..... Emerson
f. "The Ragpicker"..... Emerson
Glee Club.

It seemed that ill fortune had determined against the giving of this concert, and it was because of illness among several members of the club that the date had been postponed from the previous Friday evening. Within the following week two of the members were rendered unable to sing, Mr. Pelot by a painful injury at basketball practice and Mr. Cramer by illness. These places, however, were filled by other trained voices and a very entertaining program was rendered.

The two instrumental numbers rendered by the Misses Hamlin and Fuller at the piano and Prof. Morse at the organ were very pleasing and showed much ability. It is hardly necessary to say how thoroughly the audience enjoyed

Local Briefs.

Dr. and Mrs. Hulley were the guests of Mrs. Stetson at the College Arms last Sunday.

Misses Corrinne Pelton and Marjorie Mace went to their home at Lake Helen Friday.

Misses Hunsaker and Minerva Bond enjoyed a pleasant drive to Lake Helen Sunday afternoon.

Misses Dorothy Duncan, Mary Whitney and Geneva Simpson spent a pleasant evening at Mrs. Watts' Saturday.

Mr. Wesley Fennell, Law '06, has been visiting friends about the campus. He was called here by the illness of his sister.

A globular slate blackboard has been added to the equipment of the mathematics department for use in the study of spherical geometry and trigonometry.

Messrs. Woodward and Glass, with their little tin dinner baskets slung about their necks, went forth on Saturday afternoon to explore the wild woods in the name of Biology.

Mr. Ernest Ricker, of Jacksonville, was the guest of Mr. Blocker on Saturday evening. Several years ago Mr. Ricker was a Stetson boy and is at present traveling for a Jacksonville business house.

The Young Women's and Young Men's Christian Associations will unite on next Friday evening in tendering a reception to their fellow students in the parlors of Chaudoin from six until eight o'clock.

On Friday afternoon just as old Sol was scratching his chin on the pine-tops west of town Messrs. Wilder, W. Carlton and Hendry seized their trusty, rusty muskets and set out for Crows Bluff. Of course they had a good time.

Messrs. Harold Smith and Paxton were the guests of Happy Hollow on Saturday evening. After the meal was disposed of everybody indulged in a series of athletic exercises. Mr. Smith coming off first in the wrestling contest, with Garwood a close second.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that fails to cure. Send for free testimonials. **HENRY A. CO.,** 111 Madison St., St. Louis, Mo.

VIGOROUS LANGUAGE.

Dr. Hulley, who was in the position to the resolution, was on the floor, and was making personal remarks to his speech. Another remark was made, due to some interruption, and he addressed some remarks to Jennings, which were equivalent to "passing the lie," and for the few moments the convention was almost thrown into pandemonium.

Some of the cooler heads got the floor and made some very pertinent suggestions, in deference to which Dr. Hulley first apologized to the convention and then to ex-Gov. Jennings for using the language in the presence of the assembled body, but maintained that he could "prove the fact" by letters and papers in his possession.

At this juncture the convention was called to prayer, Dr. Van Ness leading. After a fervent prayer the convention, on motion, allowed Dr. Hulley the privilege of making his speech, but limited his time to thirty minutes. The doctor, failing to get a long time extended him, thanked the body for the courtesy, but declined to make any speech in defense of his stand on the ground that the time allotted him was wholly inadequate for him to read the documents and produce the evidence which he desired to bring before the convention in connection with his speech.

The previous question was called, and the resolutions were adopted by the convention, after slight amendments had been made.

ADOPTED RESOLUTIONS.

The resolutions as adopted are as follows:

"Be it resolved by the Florida Baptist Convention in annual session assembled:

"First—That it is the first decision and opinion of the Florida Baptist convention that the properties owned and possessed in the name and for the use of the John B. Stetson University are in deed and in fact the property of the Florida Baptist Convention of the State of Florida and were donated to and invested in the John B. Stetson University and its predecessors for the purposes and uses of the Florida Baptist Convention.

"Second—That the institution was founded and is the outgrowth of the prayers, efforts and means of the Baptists brethren of Florida, and the charter of the DeLand College, afterwards amended by an act of the Legislature by changing the name of the institution to that of the John B. Stetson University was at the instance of the Florida Baptist Convention, formed as a matter of convenience in handling the properties, affairs and effects that required the vesting of the legal title to lands, properties and effects, but as the property of and for the sole use and benefit of the Florida Baptist Convention.

"Third—Resolved further, That the State Board of Missions and the Florida Baptist Convention (incorporated) be and they are hereby authorized, empowered and directed to prosecute, if possible, otherwise by the courts or the legislature, as is found advisable, an averment in such form as may be determined, following particularly:

"(a) Finding the trustees of the institution as is increased by the election of White House.

"(b) Finding the trustees of the institution as is increased by the election of White House.

"(c) Finding the trustees of the institution as is increased by the election of White House.

"(d) Finding the trustees of the institution as is increased by the election of White House.

"(e) Finding the trustees of the institution as is increased by the election of White House.

"(f) Finding the trustees of the institution as is increased by the election of White House.

"(g) Finding the trustees of the institution as is increased by the election of White House.
